FOURTEEN VICTIMS OF SLATE CAVE-IN

Men Killed in a Collapse in Vermont Quarry.

The President of the Company Among the Dead—Cave-in of the Usual Kind.

MEN IN A BURNING MINE

Troy, N. Y., Oct. 7.—Fourteen men were killed by a cave-in at the Vermont slate company's quarries, about two miles and a half from Granville, N. Y. Among the dead is J. B. Williams, president of the company. The others were Hungarian laborers. Sixteen men were buried in the cave-in. David Cadwallader and Frazier Queen, the foreman of the quarry, were rescued. The latter is expected to die.

Four bodies have been recovered. The residents of Granville and the neighboring country are helping in the work of rescue. Mr. Williams was a prominent citizen of Granville. He was formerly a commercial traveler for a New York Japanese sugar store.

The cave-in was such as occurs frequently in the quarries which abound in Southern Vermont, but usually they happen in the night, or give sufficient warning for all to escape. Mr. Williams, president of the company, was on the pile of waste when it fell and was not buried deep, nor was his body badly disfigured, but he was crushed internally.

Foreman Cadwallader was taken out practically unhurt, but Foreman Frazier Queen was probably fatally hurt. The rest of those buried were Hungarian laborers. It is thought none of them can be alive.

Men in Burning Mine.
Florence, Col., Oct. 7.—Thirty men were imprisoned in a burning coal mine near this city. A desperate effort was made to rescue them and ten men have been rescued from the burning Fremont coal mine.

Twenty-five men are still imprisoned. The officers report they are working and expect to take out the remaining miners alive.

Taft Is It

IT IS DECIDED THE CANAL WILL REMAIN UNDER HIM.

War Secretary Will Go at Once to Panama and Gather Data to Be Presented to Congress.

Washington, D. C., Oct. 7.—The management of the Isthmian canal affairs will remain under Secretary Taft, who will go to Panama to investigate the situation there, and thoroughly inform himself of the conditions in the canal zone.

The decision to keep the control of the canal in the war department, instead of transferring it to the state department, was finally reached today in a discussion that followed the cabinet meeting. Now that the work is to proceed under his direction, Secretary Taft will proceed to Panama, go over the situation in detail and return to Washington about the time the congress convenes.

Early next week the Secretary will take up the subject of finances and decide as to what recommendations shall be made to congress respecting the issue of bonds, which have been provided for by congress.

Secretary Taft will give every feature of the canal administration his careful personal attention.

Seventeen New Cases.

New Orleans, Oct. 7.—Seventeen new cases and two deaths were reported to noon today.

Mayor Yeiser Says He Is Through With Politics After This Term Ends

Mayor D. A. Yeiser was in a pleasant frame of mind when a reporter called this morning. He was seated in his office chair, his feet propped up on the window sill and every indication showed his mental powers relaxed and that he was enjoying himself thoroughly. Mayor Yeiser does not use tobacco and the only way a mental calm can be detected is when he has time to hiko up his feet, talk to newspaper men, and relate a few of his experiences and incidentally tell of his intentions politically.

"A fellow who does not want me in office, and who worked hard against me in the last race," he declared, "came up to me this morning and said: 'Look here Yeiser, when does your term expire?' I informed him I held out until 1908.

DESPERATE ATTEMPT

To Rob Postoffice and Blow Safe in an Ohio Town.

Chagrin Falls, O., Oct. 7.—A sensational and desperate bank and post-office robbery occurred here early this morning, and an armed posse of citizens is chasing the desperadoes toward Cleveland. Several shots were exchanged between Cashier Rogers and his sons at a private bank, and the robbers at work inside. The cashier was shot at, the deputy marshal held up, and the postoffice safe blown and robbed.

AGAIN MENTIONED

HON. JOHN W. YERKES MAY SUCCEED SEC. CORTELYOU.

Kentuckian Tipped for a Place in the Cabinet in the Near Future.

Today's Memphis Commercial Appeal contains a picture of Hon. John W. Yerkes and says:

"Either the portfolio of commerce and labor or that of the treasury is said to be ready for Hon. John W. Yerkes, of Kentucky, when Secretary Metcalf and Secretary Shaw retire. If Postmaster General Cortelyou is given Mr. Shaw's place at the head of the treasury department then, it is said, Mr. Yerkes may succeed Mr. Cortelyou. Mr. Yerkes was the leader of the movement that ended the undisputed control of affairs in Kentucky by the Democratic party. He was a candidate for governor in 1900 and led the McKinley electoral ticket, his friends say, by 3,000 votes but was counted out and declared defeated. He was appointed collector of internal revenue in 1897 and became commissioner of the bureau in 1900."

Y., Oct. 7.—Search for Willis and Fred Olney, on whose farm near here Alice Ingerick, aged nine, was found murdered yesterday and her mother unconscious from a severe beating, resulted in the discovery of the body of Fred Olney near the scene of the tragedy. No trace was found of Willis Olney and the belief prevails that he was murdered and his body hidden in the woods. There is no clue to the murders.

"David Harum" Nets \$125,000.

Syracuse, N. Y., Oct. 7.—"David Harum," the novel written by the late Edward Noyes Westcott, of this city, netted the author's estate about \$125,000, according to a statement made in surrogate's court today, when the final accounting of the executrix was filed. Mr. Westcott, who was a banker, died seven years ago and the estate was held open to derive the benefits from the sale of the novel.

KIDNAPER CROWE AFTER ROCKEFELLER

Rogue Who Abducted Cudahy's Son Played for Big Stakes.

Went to the Oil King's House and Hung About a Whole Day, But the Plot Fell Through.

"MAY GET HIM YET," HE SAYS.

Batte, Mont., Oct. 7.—Pat Crowe, kidnaper of Edward A. Cudahy, Jr., is either the king of plotters or the prince of Ananias. He dazed the police today by uttering this amazing story through the bars of his cell: "I planned to kidnap John D. Rockefeller and get his son to give me \$2,000,000 as a ransom. It was immediately after the Cudahy kidnapping that my partner and I—never mind his name—were lying low in Chicago, laughing at the announcement over the affair. It had been so easy that I suggested that we go after a bigger game, with the result that within a week we took the train to Cleveland to kidnap Rockefeller.

"We got down there, went out to his place at Forest Hill and sized up the place. The old man was there. We planned to hold up the watchman, gag him and get into the house at night—we had a plan of the entire place—and arranged to hustle the old man into a rig and spirit him away. We scheduled the job for Wednesday night. About 6 o'clock my partner said he wasn't feeling well and asked me to put it off until the next night. Well, I put it off, and at noon the next day (Thursday) he broke down and said he thought we were being watched. That settled it. I began to fear he was going to betray the Cudahy affair, so I hurried to New York and from there to South Africa. Rockefeller is holding up the world and getting his ransom, too," added Crowe. "Why shouldn't I make him pay if I have the chance? Rockefeller is the oldest child I ever had designs on. Maybe," concluded Crowe, "I'll get the old man yet."

Twenty-Seven People Killed in Wreck in Russia.

Rostoffodon, Russia, Oct. 7.—Twenty-seven persons were killed and thirty-five injured, some seriously, today when a mail-train bound for Vladikavkaz left the rails and was wrecked.

YOUNG TEDDY HURT.

Son of President Injured in a Harvard Scrimmage.

Cambridge, Mass., Oct. 7.—The first freshman to be laid out on Soldiers' Field this year was Theodore Roosevelt, Jr. The accident happened yesterday. Two freshmen eleven were practicing. Young Roosevelt was playing end on one of them. The play came toward him and he plunged into the scrimmage.

When the pile was disentangled he was bleeding profusely from a cut over his eye. He was hustled off to the dressing room, and the cut, not being big enough to require stitching, was patched up with a cocoon.

"LITTLE ITALY."

Has a Destructive Fire at New York This Morning.

New York, Oct. 7.—A spectacular fire in the lumber yards, ice houses, stables and storage sheds in Harlem's "Little Italy," early this morning caused a hundred thousand dollar damage. It burned through two blocks and caused a panic among the foreign element. Mounted policemen were called to restore order. Many were injured and three firemen were severely burned.

THE WEEK'S NEWS IN THE COMMERCIAL WORLD

Clearings for the week, \$654,201
Same week last year, 799,768

Business is reported steadily improving, but warm weather has somewhat delayed the fall rush. It is expected by the retail trade that the rush will begin very soon. The wholesale trade continues quite good in all circles.

R. G. Dun's Report.
New York, Oct. 7.—R. G. Dun & Co.'s weekly report is as follows:

Favorable trade reports still predominate and there is no anxiety regarding the future. Higher temperature checked the retail distribution of heavy wearing apparel and other seasonal merchandise, but preparations for unprecedented fall and winter trade continues without diminution.

Superlatives are needed in commenting on real estate transactions, building permits, bank exchanges and railway earnings, and the failure statistics for the third quarter show very low rates. The Quarterly records back to 1875 disclose no three months' period when the ratio of liabilities to solvent payments through clearing houses was lower than the 62 cents to \$1.000 just recorded; while the average loss to each firm in business of \$15.26 was less than in any year except 1881.

Industrial activity increases the large tonnage of new business assuring full time at the steel mills still further into next year; footwear shops show much heavier shipments than in 1904, and the textile factories are well engaged. Foreign commerce at this port showed an increase of \$2,178,260 imports, and a gain of \$22,891 in exports as compared with the same week 1904.

Commercial failures this week in United States 195, against 222 in the corresponding week last year.

Total Bank Clearings.

New York, Oct. 7.—Total bank clearings compiled by Bradstreet for the principal cities in the United States for the past week amount to \$3,030,761,911, an increase of 17.0 per cent as compared with the corresponding period of last year.

The Tobacco Report.

Tobacco Inspector Ed R. Miller's report for this week is as follows: Week ending October 6, 1905—Receipts year, 5794 hogsheds. Offerings year, 5270 hogsheds. Pr. sampling week, 52 hogsheds. Sales week, 22 hogsheds. Sales year, 5355 hogsheds.

Now at Work.

The Hardy Buggy company is getting things in shape for regular operation to its fullest capacity and has finished the first buggy, which will be given to the Commercial club and raffled off. Mr. W. T. Hardy has arrived from Cincinnati and taken his place with the company.

Pottery Incorporated.

Mr. J. A. Bauer has decided to incorporate his pottery, and articles will be filed today fixing the capital stock at \$100,000. Mr. Bauer will be president and the only other Paducahan interested will be Mr. J. C. Porter, the tobacco man. Some eastern men have purchased an interest in the concern, which is one of the largest in this section of the country, and W. W. Pope, of Akron, O., will be secretary and treasurer. The pottery will likely be enlarged. It has been reported that Mr. Bauer was going to sell out entirely and move to California, but he denies the report, saying that he is merely going to take a trip there this winter.

Comes From New York.

Mr. J. D. Pulliam has arrived from New York to locate here and has bought the grocery of James Wilkinson at Ninth and Tennessee streets. He is a brother of Dr. S. B. Pulliam, of the city.

Will Require Two More Months.

Mr. C. C. Rose, insurance commissioner of the Tennessee and Kentucky board of underwriters, who has finished inspecting the north side of Broadway in the business section of the city, and is now as far as Second street working up the south side, thinks it will require two more months to complete the fall inspection.

Prominent Men Here.

Mr. A. L. Teta, of Nashville, Tenn., a prominent telephone man, is at the Palmer.

Messrs. W. W. Pope, and John J. Starr, of Akron, O., who are to be interested in the J. A. Bauer pottery here, arrived last night and are at the Palmer.

Messrs. George C. Atkinson, of Earlington; W. B. Duncan, of Greenville; M. B. Ray, of Madisonville, and Jno. Hobson, of Central City, all prominent coal dealers, are at the Palmer today on business. They say they all just happened to drop in, and declare there is no significance in the meeting.

Washington, Oct. 7.—Urey Woodson is here with his daughter, who will attend the national seminary near Washington.

TRIED ON TRAIN AND GIVEN 7 YEARS

Jim Hale Who Had Been in Jail Here, Had Quick Trial.

The Jury Was in the Baggage car, and the Negro Pleaded Guilty and Was Given the Limit.

IT ALL TOOK ONLY 8 MINUTES

Fulton, Ky., Oct. 7.—One of the quickest trials ever consummated in this section was held on train No. 6 en route to Cairo yesterday at 1:10 o'clock in which Jim Hale, the negro boy arrested for attempted rape near Clinton several weeks ago received a sentence of seven years in the penitentiary, the largest sentence the law allows for the crime.

The judge, who is but 16 years of age, was carried to Paducah for safe keeping at the time of his arrest and has been held at that place ever since until cited for trial yesterday before Judge Bugg.

The judge, who realized fully that if the prisoner was carried to Clinton he would be lynched, had him brought to Fulton Wednesday night and arranged with the local I. C. officials to have the negro placed on the yesterday's afternoon train to Cairo, the jury all being in the baggage car and everything arranged for an immediate trial. As the train pulled out for Clinton the boy pleaded guilty and was given a sentence of seven years hard labor in the penitentiary, the whole affair taking but eight minutes for completion. This beats all local records of short trials.

Hale, it will be remembered, had been working on a farm near Clinton, Ky., and telling his employer a man named Wheezy, that someone wanted to see him, had him go some distance away, and then assaulted the farmer's daughter. She screamed for help and a man passing in a buggy ran to her assistance.

A posse caught Hale after trailing him for many hours and a mob started to lynch him but was outwitted by the sheriff, who drove from Clinton to Columbus, Ky. The jailer at Columbus refused to receive him on account of reports of another mob forming to come after him.

Sheriff Evans then drove to Paducah in a buggy with his prisoner, who had been in jail here until taken away Wednesday night.

NOTED EDUCATOR

May Have to Go to Jail in Default of Bond in Embezzlement Cases.

Peoria, Ill., Oct. 7.—With the closing of the Peoria National bank by order of the directors today, and voting the indictments making a total against N. C. Dougherty of 100 and refusal of friends on whom he had counted to give him financial assistance, the banker and noted educator faces the probability of going to jail. Dougherty has placed in trust securities amounting to nearly two hundred thousand dollars to cover the alleged shortage, and seems oblivious to the fact that he's under a black cloud.

BERRYMAN APPOINTED.

Postmaster at Lexington Had Been Predicted.

Washington, D. C., Oct. 7.—The present day appointed Charles H. Berryman to be postmaster at Lexington, Ky. It had been predicted for several days that he would get the appointment. It is understood that the widow of the late postmaster Elkins will be given a large part of the salary.

Mr. Harris has only about half of his crop housed.

Pat Crowe Leaves Butte.

KENTUCKY GIRL

Mortally Wounded by Infuriated Lover, Who Then Killed Himself.

St. Joseph, Oct. 7.—Driven mad over her refusal to marry him, Fred Fearer, chef in a restaurant, attempted to kill Violet Lonsdale this morning, and then killed himself in the presence of the victim, who was mortally wounded. Fearer forced himself into the girl's room and began firing, while she was in bed. Miss Lonsdale was born at Beattyville, Ky., and her mother lives in Indianapolis.

MAYFIELD KILLING

A LOVESICK NEGRO YOUTH SHOOT HIS SWEETHEART.

He Then Escaped and Is Believed to Have Caught a Fast Train South.

Harry Blake, age about 18 years, shot and killed Hattie Boatwright, in East Mayfield last night about 7 o'clock. They are colored.

The boy was in love with her and they had quarreled, it is said. He pulled out the pistol and shot twice, both shots taking effect. The woman lived about half an hour after the shooting.

Blake escaped and local police were notified of the shooting early in the night and have a good description of the boy. He is thought, however, to have gone south on the fast passenger train which passes Mayfield about 7:35 o'clock.

PRECEDENT UPSET.

Democratic Convention Praises Roosevelt for Peace Work.

New York, Oct. 7.—Political precedent was upset Thursday night when resolutions praising President Roosevelt for his tact and statesmanship in bringing about a settlement of the Russo-Japanese war were adopted amid enthusiastic cheers at the Democratic city convention in Carnegie hall.

The resolution created a sensation. They spoke of the president's "remarkable tact, surprising courage, distinguished ability and commanding influence" in achieving the greatest peace triumph of the age.

Loud cheers marked the mention of Mr. Roosevelt's name and a storm of applause followed the conclusion of the reading.

Perfect harmony marked the convention, which unanimously and out dissent, nominated George B. McClellan for mayor.

MISTAKEN IDENTITY.

John Sharp Williams' Secretary Arrested Because He Answered Description of Man Wanted.

Chattanooga, Tenn., Oct. 7.—A queer case of mistaken identity was that of Robert Coward, arrested yesterday at Sewanee, Tenn., for an alleged outrage on a seven-year-old girl in this city. The supposed culprit proves to be the secretary of John Sharp Williams a visitor at the university town. The name, age, height, and weight were the same as those of the man wanted, who had been a bartender here.

HORRIBLE DEATH FOR I. C. FIREMAN

Driving Rods of Engine Broke and Demolished Cab.

Karl Crofton, of Louisville, Had His Neck Broken and Was Knocked Off the Engine.

ENGINEER'S NARROW ESCAPE

Louisville, Ky., Oct. 7.—Death came in sudden and awful form to Karl Crofton, fireman on a locomotive passenger train of the Illinois Central railroad, about a quarter of a mile north of Rockport, Ky.

Crofton was in the cab of the engine, which was crossing a twenty-five-foot trestle, when both side rods that drove the wheels became disconnected, and crashed up through the cab, striking Crofton and breaking his neck. He was lifted bodily out of the cab by the rod and dropped through the trestle, falling a distance of twenty-five feet to the ground below. The train was stopped and the body picked up and taken to Central City, from where it was brought to Louisville.

Crofton was twenty-five years of age and lived at Louisville.

Engineer Henry Frisz, formerly of Paducah, but now of Louisville, also had a narrow escape.

The engine was running at a rapid rate when the driving rods broke, and struck the cab occupied by the engineer and fireman reduced it to kindling wood, and broke the steam guage on the engine filling the wrecked cab with steam that blinded the occupants.

Though the engineer, Henry Frisz, was being burned by the escaping steam, he clung to his seat until he stopped the train, the engine having gone quite a distance on the ties. His presence of mind saved a bad wreck with great loss of life. Though a large man, he pushed his way through a twelve-inch space, and was found to be as wet as though exposed to a drenching rain. His escape from death is considered marvelous.

\$500,000 DEAL.

Involving Coal Lands Near Dawson Has Been Consummated.

Hopkinsville, Ky., Oct. 7.—The purchase and cash payment for the celebrated Charleston coal field, three miles northeast of Dawson Springs, in Hopkins county, together with the incorporation of the Dawson Coal Coke and Railroad company for a half million dollars with the main office located at Dawson Springs has just been made public, together with pending negotiations in north Alabama for a similar coal field including mines and plant of one of the largest coal companies in the south, which when combined with the Dawson coal field will make a million dollar property, with a daily output of 2,000 tons of coal.

The company is composed of southern bankers and capitalists, who are buying and improving coal lands in the south, as a profitable and permanent investment for their surplus money, which they regard as the best investment they can find.

The deal has been quietly manipulated by Messrs. W. G. Harris, and L. Hayden, of this city, who have bought and paid for the property incorporated the company, and are two of its main officers and directors.

This will be a matter of great financial importance to the city of Dawson and will add very materially to its annual business.

C. Flournoy, of Paducah, who came here for that purpose. The creditors ask that the claims of families of owners of the two boats be declared illegal. The boats are owned by Capt. F. L. This is the first time this company has even opened to ladies free in the entire eight years they have been on the road. If it were merely another moving picture exhibition, it certainly would never have attained the rank it has. But Mr. Howe's achievements in the domain of moving pictures bear a loftier stamp. Specials between acts.

The largest audience of the season enjoyed to its utmost the best performance of the season at the Kentucky theater last night when "The Royal Chef" made its bow to Paducah theater-goers. The house was crowded and the show aroused the spectators to great enthusiasm, and there were no dull moments.

The comedians are all funny, the chorus well drilled and trained, and the color harmony that prevailed in every scene excelled anything seen here in a long time.

The principals are Harry Hermen, as the chef, who made a hit here the first time the "Beile of New York" was presented at The Kentucky, as "the polite lunatic." He has since played Nans Nix in "The Telephone Girl" and is one of the best comedians on the stage. He was ably assisted by Charles Huntington, as the Rajah. Mr. Huntington has a fine stage presence and good voice, and is funny. William Sellery as Lord Mito was equally as good as the others and in addition to his comedy has a good voice. theatrical people of the latter were very fine. The entire performance is delightful and thoroughly high-class.

Musical Director Ed Trautmann, of "The Royal Chef," was here last

season with Richard Mansfield. He says Prof. Wm. Deal has one of the best orchestras to be found in any of the circuit towns.

Montjoy Walker, one of the comedians in the Herald Square Opera Co., is well known in Paducah, having played in light opera at the Casino, Wallace park, when it was under the direction of Mr. J. E. English three summers ago.

The manager of "The Royal Chef" is Mr. Fred Miller, Jr., known all over the country as "Dusty" Miller, and one of the most celebrated theatrical managers in the country. He was in Paducah 24 years ago with Haverly's Minstrels and played in the old St. Clair hall. He was here three years ago with "The Chinese Honeymoon" when Henshaw and Ten Broeck were the stars. Since then he has been managing Paula Edwards in a European tour only recently returning.

There are two big productions for Horse Show week, if one of them is signed. One is "Lady Teazel," with Grace Van Studdiford in the title role, on the 16th, and "The Lady and the Bandit" which made such a hit last season, on the 18th. The contract for the latter, which has wired in for time, will probably be signed up at once.

IS ENCOURAGING.

F. O. L. Gregory Secures Promises of Breeders to Come Here.

Yesterday's Courier Journal says: "Mr. O. L. Gregory, representing the Paducah Horse Show association, was in Louisville on a short visit yesterday, making preparations for the first Paducah Horse Show, which is to be held October 18, 19 and 20. Mr. Gregory visited several prominent saddle-horse breeders, who have promised to exhibit at the show. This is the first attempt which has been made to hold an exhibition of horses in Western Kentucky, but the prospects are very flattering."

The Week In Society.

OCTOBER.

In trails of fire across the land
October flings with lavish hand
The glowing bitter-sweet.

With gems and gold the trees are
brave,
While spices that the East might
crave
Float up beneath my feet.
—Rosalie Arthur in Oct. Ainslee's.

Clubs Are Trumps This Week.

October has ushered in many of
the clubs and the week has been given
over to them, there being "little
doings" otherwise socially.

Everybody is resting up, or working
up the horse show, and there will be
little time for any entertaining
until that gala week is on. Much is
being planned for Paducah's first
horse show, and while we may not
have a Reginald Vanderbilt to grace
the occasion, "there are others," and
our big sister, Louisville, will have to
look to her laurels.

building.

October D. A. R. Meeting.

Mrs. James M. Buckner was hos-

Benjamin Franklin. The greeting
by the Regent, Mrs. Hubbard S.
Wells, was especially happy and
graceful. The topic "October Histo-
ry in the Revolution," was discussed
very cleverly by Miss Emily Morrow.
Mrs. George B. Hart and Mrs. David
Flournoy rendered some attractive
music. A delightful 2-course lunch-
eon was served by the hostess during

Daily Thought.
 "It is a false estimate to rate a man by accumulation rather than by attainment."

THE VANISHING DEFICIT.
 The government's receipts for September exceeded its expenditures to the extent of \$8,940,000, says the Globe Democrat. For the three months of the fiscal year expenditures have gone \$9,574,000 ahead of receipts. July is always a month of heavy payments by the government for interest on bonds and for the outlay for the new fiscal year, which begins with that month. It saw notably heavy expenditures this year. The outgo in August also was heavy. Then the turn of the tide came. October, January and April, however, will see a big outlay.

For the first quarter of the previous fiscal year the deficit was very nearly twice as great as it is now, or about \$18,000,000. For the entire fiscal year which ended on June 30, 1905, the deficit was \$24,000,000. On the basis of reduction which has been made thus far this year the deficit for the twelve months which end with June, 1906, will be in the neighborhood of \$13,000,000. It may be a little more than that figure. There is a possibility that it may be somewhat less. Estimates of this sort made half or three-quarters of a year ahead are subject to many elements of risk. A sudden check in the business expansion would affect the situation disadvantageously. An increase in the outlay by the treasury under laws already enacted would make a difference in the balance. But it is pretty safe to assume that the

treasury shortage will be much less than it was a year ago.
 Receipts are much larger than they were a year ago. This is true of both customs and internal revenue. For September, 1905, the receipts for customs were larger than ever before in that month. The United States is making heavy purchases of foreign goods. Home producers are busy, but they can not keep up with the home demand. Therefore the foreign producers are called on to make up the deficiency. Some of the things which we import are either things that are not produced at home or the home quality is inferior, or purchasers imagine it is, which amounts to about the same. The treasury outlook like the general financial situation, is exceedingly bright.

Those who watch the course of legislatures will agree that many of the bills introduced affecting corporations are in the nature of blackmail, but it doesn't follow that the corporations must pay the blackmail as President McCall, of the New York Life, says the insurance companies had to do. An open fight against injustice would have been far more reputable than paying out policyholders' money to buy off scamps. Frankfort State Journal. Yes, it sounds very well to talk that way, but if it is to the interest of the policyholders to pay money to prevent ineffectual legislation, it is cheaper to pay it. There are too many people who believe that nothing that could be done would be an injustice to corporations, to justify "an open fight against injustice."

WILY POLITICIANS.

Are Giving Free Lectures in Tennessee to Curry Favor With Masses.

Nashville, Tenn., Oct. 6.—A unique feature of the campaign for United States Senator in Tennessee is the course of ex-Governor Taylor and Senator Carmack in delivering lectures here and there in the state for the benefit of churches, societies, etc. Senator Carmack has a very fine lecture on the subject of "Character," in which he roasts saloons and gamblers. This lecture he is delivering almost daily, while ex-Gov. Taylor makes humorous addresses on various subjects and sometimes delivers his famous lecture on "The Fiddle and the Bow."

The church people have caught on to the fact that these men are drawing cards, and appeals for their services are pouring into the respective headquarters in this city. Neither Carmack nor Taylor has decided when he will take the stump, but the former will probably begin speaking within the next few days. All chance for a joint debate has passed, Taylor declining to enter into such a canvass.

Through Colorado and Utah.

The Denver and Rio Grande, with its numerous branches penetrating the Rockies, have two distinct and separate lines across the mountains. Tickets reading via "The Scenic Line of the World" between Denver and Salt Lake City or Ogden, are available either via the main line through Leadville Canon of the Grand River and Glenwood Springs or via the line over Marshall Pass and through the Black Canon of the Gunnison. Tourists to and from Salt Lake City, Ogden or San Francisco, will find it to their advantage to have their tickets read in both directions via this route, thus being able to use one of the above lines going and the other returning. Fought Duel on Roof.

New Orleans, La., Oct. 7.—As a result of a desperate encounter at Bernice, Union parish, between Dr. D. B. Garland and W. J. Thaxton, town marshal of Bernice, who fought a duel with knives and pistols on the second story of a business building, both men sustained wounds which will prove fatal. The duel occurred in the office of Dr. Garland and the men, while in the embrace of each other, rolled out of the doctor's office and over the veranda to a concrete pavement underneath. Thaxton sustained two bullet wounds and six or eight wounds from a knife. Dr. Garland was stabbed near the heart. The duel, it is alleged, grew out of a lawsuit between Garland and Thaxton.

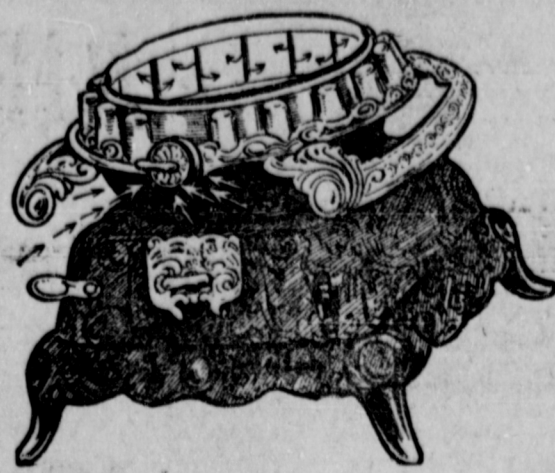

Purity In Prescriptions

A prescription may be compounded ever so accurately, by experienced prescriptionists, with the highest degree of carefulness, yet if the drugs are not pure it is worthless—dangerous.

The True Hot Blast Principle.

This picture shows the Hot Blast ring in the great Buck's Hot Blast Heater that you are hearing so much about these days. It shows how the cold air is drawn from the floor into the stove. This means that there is consistent circulation in your room—a most important feature from a health giving standpoint. There is no "dead air" in your home. We will demonstrate the workings of this wonderful heater in front of our store on October 13. After the demonstration we will give the heater, valued at \$35.00, away. Get a ticket of our store.

LADIES HELD UP.

Judge Sanders' Wife and Daughter Have Opera Glasses Snatched.

Mrs. D. L. Sanders, wife of Police Judge D. L. Sanders, and daughter, Miss Ella Sanders, were held up by an unknown negro last night about 11:30 o'clock at Ninth and Monroe streets, within hearing distance of their apartments in the Sans Souci flats on North Ninth street, and a fine pair of opera glasses snatched from Miss Sanders.

The mother and daughter had been to the Kentucky to witness the Royal Chef production, and were returning home. The negro had followed them, but thinking it some spectator at the show they paid no attention to him.

Unobserved by the ladies, the negro slipped up when a dark spot was reached and demanded money.

Miss Sanders carried her opera glasses in a bag hung on her left arm. The negro thought it her purse and snatching it ran away, but not before Miss Sanders had struck him in the face with her fist. The police were notified but failed to secure a clue by which the negro might be recognized.

The holdup created a great deal of excitement in that vicinity. The ladies screamed for help and in a few moments the entire neighborhood was aroused.

SUPREME LODGE CALLED.

To Consider Advisability of Holding Pythian Meeting in New Orleans.

Richmond, Ind., Oct. 7.—Charles E. Shively, of this city, supreme chancellor of the Knights of Pythias of the world, called a meeting of the supreme lodge officers to be held at Indianapolis on October 30. The object is to consider whether, owing to the yellow fever, there should be a change in the meeting of the supreme lodge and national encampment set for New Orleans in 1906.

Had to Let Go.

New York, Oct. 7.—Screaming for assistance to "prevent the husband and father from falling from a fourth-story window, Mrs. George F. Krapp and her son, Herbert, unable to pull the man back into the room, were compelled to let him drop to the pavement. Almost every bone in the man's body was broken and he died shortly after being taken to the hospital. George F. Krapp was 52 years old and cashier of the Cooper Exchange bank.

The Cincinnati Commercial says:

"The committee of the Business Men's club which has the proposition to build a boat for the Kentucky river trade, to run between Cincinnati and the headwaters of the Kentucky river at Valley View, are seriously considering the question of building a boat on the tunnel plan. This is the invention of a machinist at Charleston, W. Va., and is adapted peculiarly to light-draft streams. Several boats on the same plan have been built for service on rivers of the United States, and have been found to be successful. One of these boats is the Runnymede, which is used by the government in work along the upper Nile, in Egypt, and found to be perfectly satisfactory. The committee is about to invite the inventor of the boat to bring one of his boats to Cincinnati for a practical demonstration of the craft.

REFUSED TO ESCAPE.

Unusual Conduct on Part of Workhouse Prisoners.

Morristown, Tenn., Oct. 7.—While Guard Mel Thompson, in charge of thirteen workhouse prisoners, was trying to escape from a blast, he was hit on the head by a fragment of stone and knocked senseless. Instead of escaping, as they could easily have done, every member of the gang assisted in restoring their guard to consciousness and then brought him back to the workhouse.

Beavers to Be Organized Next.

In the near future a lodge of Beavers, an organization for southern men only, will be organized here. There are several men already agreed to join it and in a few days W. H. Fruttkiner, of Birmingham, Ala., supreme organizer, will be here to get applicants. Some of the most prominent men in the south belong to the order. It is a social institution and has benefits in case of sickness and death.

CAME OUT TO BE KILLED.

But the Constable Turned the Tables and Did the Killing.

Louisville, Ky., Oct. 7.—Austin Burgess, a wealthy young farmer of Gamaliel, Ky., invited Constable Shoeman Dickerson to come out of his house and be killed, and the officer accepted the invitation to come out, but he was armed with a shot gun and before Burgess could shoot had fired both barrels, Burgess falling out of his buggy dead. Burgess had been arrested by Dickerson on a peace warrant and had openly sworn to be avenged on the officer.

CULVERT PLANS

For the Caldwell Street Bridge, Are Complete.

Plans for the concrete culvert to be put in to replace the old bridge on Caldwell avenue, leading to the I. C. union depot, will be completed by Monday and ready for submission to the board of public works on Wednesday.

Mr. Robert Richardson, draughtsman in the city engineer's office, was delayed in getting the drawings finished by urgent street contract work, and did not get to work on this job until today.

The culvert will cost about \$2,000 and has been ordered by the legislative boards. The contract will probably be let next week. It is the desire of the board of works to get it in as soon as possible, the present bridge being unsafe.

BOTH BOARDS

MET IN CALLED SESSION AND RATIFIED SALE.

Of the Two Franchise—The Old Franchise Was Then Relinquished by Street Car Co.

The councilmanic and aldermanic boards met in special session this afternoon at 2 o'clock for the purpose of ratifying the action of the mayor in selling two franchises this morning.

The council was called to order by Mayor Yelzer. Councilmen Kolb and McCracken were absent.

Mayor Yelzer then reported the sale of a franchise for electric light and power to Mr. Jno. S. Becker, for \$200, he representing Stone & Webster, of Boston.

The report was accompanied by the money, and the sale was ratified.

A report of sale of a franchise for the operation of a street car system in the city of Paducah to Mr. Geo. C. Wallace, of the Paducah City Railway Co., for \$250 was read.

The sale was unanimously ratified. The street car company relinquished its former franchise which has not expired.

Mayor Yelzer read a resolution by the directors of the Paducah City Railway Co. at a meeting held at 11 o'clock this morning. The resolution authorized Mr. Geo. C. Wallace, general manager of the railway company, to relinquish all rights on the former franchise held by the railway company in favor of Mr. Becker, as a representative of the Stone and Webster Co.

The recommendation that the resolution be received and filed as a part of the city record, was favorably acted on.

Board of Aldermen.

The aldermanic board was next called into session and ratified the action of the council in the foregoing matter.

Just a Few of Our Many Good Things

If you have called, you are already familiar with the sterling values which have attracted Paducah housewives to our store in such large numbers during the GREAT CLOSING OUT-AT-COST SALE. But we are by no means sold out. Just to show you what values we are offering in American made china come in and see the handsomely decorated 35c salad bowl you can get for 18c. We have lots of these now, as our entire stock of them has been transferred from the wholesale to the retail department. But they won't last long at these prices. So come in early. Some cake plates in the same class which have always sold for 50c, now 33c.

We were unable to cancel the orders for many of the rare and beautiful pieces of hand painted French, Japanese and Austrian china (in sets and open stock, too,) which were especially imported for the benefit of discriminating buyers at Christmas time. As there are no exceptions to our sell-at-cost rule, you have an opportunity to buy for absolutely what we paid the manufacturer. And they are exclusive patterns, too. If you buy a set no one in Paducah or anywhere else will have one just like it. That's always a pleasant feeling to the woman who loves beautiful china. And remember that it's not "too expensive to use." Come in and see it, if only for the pleasure it will give you.

THE VALUE OF CHARCOAL.

Few People Know How Useful It Is in Preserving Health and Beauty.

Nearly everybody knows that charcoal is the safest and most efficient disinfectant and purifier in nature, but few realize its value when taken into the human system for the same cleansing purpose.

Charcoal is a remedy that the more you take of it the better; it is not a drug at all, but simply absorbs the gases and impurities always present in the stomach and intestines and carries them out of the system.

Charcoal sweetens the breath after smoking, drinking or after eating onions and other odorous vegetables.

Charcoal effectually clears and improves the complexion, it whitens the teeth and further acts as a natural and eminently safe cathartic.

It absorbs the injurious gases which collect in the stomach and bowels; it disinfects the mouth and throat from the poison of catarrh.

All druggists sell charcoal in one form or another, but probably the best charcoal and the most for the money is in Stuart's Charcoal Lozenges; they are composed of the finest, powdered Willow charcoal, and other harmless antiseptics in tablet form or rather in the form of large, pleasant tasting lozenges, the charcoal being mixed with honey.

The daily use of these lozenges will soon tell in a much improved condition of the general health, better complexion, sweeter breath and purer blood, and the beauty of it is, that no possible harm can result from their continued use, but on the contrary, great benefit.

A Buffalo physician in speaking of the benefits of charcoal says: "I advise Stuart's Charcoal Lozenges to all patients suffering from gas in stomach and bowels, and to clear the complexion and purify the breath, mouth and throat; I also believe the liver is greatly benefited by the daily use of them; they cost but twenty-five cents a box at drug stores and although in some cases a patent preparation, yet I believe I get more and better charcoal in Stuart's Charcoal Lozenges than in any of the ordinary charcoal tablets."

southwest. In the 30's he built boats at Paddy's Run, below Portland, at Shippingport, on the Point in this city and for many years at Jeffersonville. His late brothers, Capt. Dan and Capt. John Howard, were associated with him in the business for many years, and they built a great many large, fine boats. Capt. Jas. Howard had one son, Ed J. Howard, who succeeded his father, and who has become as famous as his father as a builder of steamboats, barges and other kind of river craft. In fact, he has built more fine, fast steamboats than any man in this country. As Capt. Jas. Howard taught his son Ed to draft and build steamboats to follow in his footsteps, so is Capt. Ed Howard bringing up his two sons, Clyde and Jim, to succeed him some day. Both are energetic, quick to learn, and they bid fair to become successful and worthy successors of their father and grandfather. Capt. Clyde Howard takes a keen interest in his father's business, and already has a fine knowledge of boat and barge building, while Capt. Jim Howard has already established a fine reputation as a builder of tugs, launches, yachts and other craft.—Courier-Journal.

The Inland Navigator says: "According to what the newspapers have printed about it, plans have been drawn, patents on machinery applied for and a company is in process of formation at Brownsville and California, Pa., for the building of the most remarkable boat yet. It is the object of the inventor to push his vessel either up or down the river at a rate of from forty to sixty miles an hour. It is claimed that the plans of such a boat are the result of ten years' work by Frank W. Thompson, of Wellsville, O. He was in Pittsburg, and is said to have succeeded in interesting some capitalists in his plans. The company to build the first boat is expected to be formed early next month at Brownsville. Plans of the new craft show it does not have to be turned around. It can be speeded up or down stream by the simple dropping of the rudder. It is a cone shape at bow and stern, and the cabins are built on a similar plan. The deck extends outwardly from the hull, and this deck on opposite sides of the cabin is provided with elongated openings in which the screw propellers operate. These openings extend entirely through the deck, and the propellers are journaled at their front and rear ends approximately in the plane of the base of the deck, so that they extend above the deck and above the surface of the water, except for the engagement of the lower edges of the propeller blades with the water, according to the claims. Any form of engine is used in driving these propellers. Strong cables are affixed to the engines, and these are connected to the propeller six times at either tapering end. It is proposed to have the pilot and the engineer both occupy the pilot house, so that they can operate directly in conjunction and thus secure a practically perfect control of the movement of the boat. It is planned to make the first vessel of this type about 125 feet long."

ONE BIDDER EACH ON THE FRANCHISES

Representatives of Paducah City Railway Company Buy Both.

The Only Object in the Sale Was to Separate the Franchises, Which Had Been in One.

HASTENS THE BIG DEAL

Mayor D. A. Yeiser this morning at 10 o'clock sold two franchises, one for the operation of a street car system in Paducah and the other for the operation of an electric light and power plant. The former was bought in by George C. Wallace, of the Paducah City Railway Co., for \$250, and the latter by John S. Bleeker, of the firm of Stone & Webster, of Boston. This latter franchise brought \$200. There were but two qualified bidders in each sale, these being Messrs. Wallace and Bleeker.

Mayor Yeiser stated before making the sale that the two franchises had been merely separated and did not mean that the Paducah City Railway company had to relinquish the old franchise which still held good until the regular time of its expiration. Had the franchises sold this morning been bought in by anyone else they would have been of no value to the purchaser unless the purchaser, desired to use one for operating a light and power plant, and in this case the operators of the present plant would have had their old franchise just the same and would not have been inconvenienced in the least.

Hon. Henry Burnett, of Louisville, attorney for the Boston firm, and Judge Parsons and Mr. D. P. Robinson, of the Stone & Webster company, of Boston, purchasers of the public properties here, were among the spectators at the sale, which was well attended.

The only reason the franchises were sold is that the eastern purchasers of the public properties desired two separate franchises for operating a street car system and light and power plant, instead of having both franchises in one, as now. The two separate franchises sold today confer on the purchasers no privilege or power not in the other franchise.

It is now expected that every detail of the transfer of the public properties will be completed by the middle of this month.

Raffles, The Amateur Cracksman

By B. W. HORNUNG

NINE POINTS of THE LAW

No. 5 of the Series

(Continued From Yesterday.)

"I'm fairly on the run," he panted, "having the very devil of a time! Not a word till I tell you all I've done. I settled my plan of campaign yesterday at lunch. The first thing was to get in with this man Crags. You can't break into a place like the Metropole; it's got to be done from the inside. Problem one, how to get at the fellow. Only one sort of pretext would do—it must be something to do with this blessed picture, so that I might see where he'd got it and all that. Well, I couldn't go and ask to see it out of curiosity, and I couldn't go as a second representative of the other old chap, and it was thinking how I could get that made me such a bear at lunch. But I saw my way before we got up. If I could only lay hold of a copy of the picture I might ask leave to go and compare it with the original. So down I went to Esher to find out if there was a copy in existence and was at Broom Hall for one hour and a half yesterday afternoon. There was no copy there, but they must exist, for Sir Bernard himself (there's 'copy' there) has allowed a couple to be made since the picture has been in his possession. He handed up the painter's address, and the rest of the evening I spent in hunting up the painter's apartment, but their work had been done on commission. One copy had gone out of the country and I was still on the track of the other."

"Then you haven't seen Crags yet?" "Seen him and made friends with him, and, if possible, he's the funniest old cuss of the two; but you should study 'em both. I took the bull by the horns this morning, went in and asked like a fool, and it was just as well I did. The old ruffian said for Australia by tomorrow's boat. I told him a man wanted to see me, a copy of the celebrated 'Infanta Maria Teresa' of Velasquez, that I'd been down to the supposed owner of the picture only to find that he had just sold it to him. You should have seen his face when I told him that! He grinned all round his wicked old head. Did old Debenham admit the sale? says he, and when I said he did he chuckled to himself for about five minutes. He was so pleased that he did just what I hoped he would do. He showed me the great picture—luckily, it isn't by any means a large one—also the case he's got it in. It's an iron map case, in which he brought over the plans of his land in Brisbane. He wants to know who would suspect it of containing an old master too? But he's had it fitted with a new Chubb lock, and I managed to take an interest in the key while he was gloating over the canvas. I had the wax in the palm of my hand, and I shall make my duplicate this afternoon."

Raffles looked at his watch and jumped up, saying he had given me a minute too much.

"By the way," he added, "you've got to dine with him at the Metropole tonight."

"Yes. Don't look so scared. Both of us are invited. I swore you were dining with me. I accepted for us both, but I shan't be there."

His clear eye was upon me, bright with meaning and with mischief. I implored him to tell me what his meaning was.

"You will dine in his private sitting room," said Raffles. "It adjoins his bedroom. You must keep him sitting as long as possible, Bunny, and talking all the time."

In a flash I saw his plan. "You're going for the picture while we're at dinner?"

"I am."

"If he hears you?"

"He shan't."

"But if he does?"

And I fairly trembled at the thought. "If he does," said Raffles, "there will be a collision, that's all. Revolver would be out of place in the Metropole, but I shall certainly take a life preserver."

"But it's ghastly!" I cried. "To sit and talk to an utter stranger and to know that you're at work in the next room?"

"Two thousand apiece," said Raffles, quietly.

"Upon my soul, I believe I shall give it away!"

"Not you, Bunny. I know you better than you know yourself."

He put on his coat and his hat. "What time have I to be there?" I asked him, with a groan.

"Quarter to 8. There will be a telegram from me saying I can't turn up. He's a terror to talk. You'll have no difficulty in keeping the ball rolling. But head him off his picture for all you're worth. If he offers to show it you, say you must go. He looked up the case elaborately this afternoon, and there's no earthly reason why he should unlock it again in this hemisphere."

"Where shall I find you when I get away?"

"I shall be down at Esher. I hope to catch the 9:35."

"But surely I can see you again tomorrow?" I cried in a ferment, for

his hand was on the door. "I'm not half conched up yet! I know I shall make a mess of it!"

"Not you," he said again, "but I shall if I waste any more time. I've got a queue of a lot of rushing about to do yet. You won't find me at my rooms. Why not come down to Esher yourself by the last train? That's it—down you come with the latest news! I'll tell old Debenham to expect you. He shall give us both a bed. By Jove, he won't be able to do us too well if he's got his picture."

"If?" I groaned as he nodded his head. And he left me limp with apprehension, sick with fear, in a perfectly pitiable condition of pure stage fright.

For, after all, I had only to act my part. Unless Raffles failed where he never did fail, unless Raffles the neat and noiseless was for once clumsy and inept, all I had to do was indeed to "smile and smile and be a villain." I practiced that smile half the afternoon. I rehearsed putative parts in hypothetical conversations. I got up stories. I dipped in a book on Queensland at the club. And at last it was 7:45 and I was making my bow to a somewhat elderly man with a small bald head and a retreating brow.

"So you're Mr. Raffles' friend?" said he, overhauling me rather rudely with his light, small eyes. "Seen anything of him? Expected him early to show me something, but he's never come."

No more evidently had his telegram and my troubles were beginning early. I said I had not seen Raffles since 1 o'clock, telling the truth with unctuous while I could. Even as we spoke there came a knock at the door. It was the telegram at last, and, after reading it himself, the Queenslander handed it to me.

"Called out of town?" he grumbled. "Sudden illness of near relative? What near relatives has he got?"

I knew of none, and for an instant quailed before the peril of invention. Then I replied that I had never met any of his people and again felt fortified by my veracity.

"Thought you were bosom pals?" said he, with (as I imagined) a gleam of suspicion in his crafty little eyes.

"Only in town," said I. "I've never been to his place."

THE MOTORMEN

Have Succeeded in Organizing a Union in Paducah.

The motormen and conductors employed in Paducah have organized a union, and secured a charter. They went about it very quietly and had no trouble in forming the organization. According to some of them there were 26 members up to last night, when a number of new ones were added. They have no intention at present, it is said, of asking anything of the company. They simply organized for mutual benefit.

Escaped Horrors of Operation. Many unusual stories were heard, but the most remarkable was told by Mrs. Kroger living on Fourth street, who said: "I have been troubled with rheumatism of both legs for five years, my ankles were almost stiff and with each move I made the pain was almost unbearable. My stomach troubled me so that it was almost impossible for me to retain food."

"My kidneys were also affected, and after I had been treated by physicians they advised and insisted on a surgical operation. I was told of the wonderful effects of the Payne remedies and was persuaded by a friend to call on Payne. I did so reluctantly as I had long ago given up all hope of being cured."

Again Able to Walk. "I bought some of the New Discovery medicine and some of the Quick Relief and after following the directions one day I felt better. I continued taking the remedies and in one week I could walk easily and without the least pain. My stomach is improved so that I can retain all kinds of food and I can heartily thank Mr. Payne for having snatched me from the horrors of an unnecessary surgical operation."

As Payne's visit draws to a close and so many stories like told by Mrs. Kroger come to light, it seems that the statements that he made when he first came to Paducah will be verified.

WAS FROM KENTUCKY. But He Found That He Was Small Potatoes in Denver.

Denver, Col., Oct. 7.—"I am in the habit of making the policemen walk up the middle of the street in the towns where I stop," said T. T. S. Peck in a saloon here last night. Peck twirled a long six-shooter around the finger of one hand.

"When I'm through with them," he added, "there will be some new springing records for Denver policemen. With this gun I can put daylight almost anywhere. I'm from Breathitt county, Kentucky, where they are all bad men."

He was arrested after a hard fight. "We don't recognize the brotherhood here in Denver. A fine of \$10 for carrying concealed weapons and \$3 for disturbing the peace," said Police Judge Stapleton.

Long Suffering Woman Tells An Unusual Story of Suffering Relieved.

Suffering with ailments of every description, throngs of people called to see Payne yesterday.

Apparently the crowds are growing in numbers and interest and an unusual scene was witnessed yesterday in Smith & Nagel's Drug Store. Almost all classes of the citizens of Paducah were represented and young people who should have been enjoying the fullest measure of health lined up with the aged to whose burden of years had been added the affliction of disease.

The crowds moved quickly, and it was evident that many had called on the advice of their friends and neighbors. A few came out of curiosity but most of the callers were sick of suffering while large numbers stepped in simply to tell about what the Payne's remedies had done for them.

Escaped Horrors of Operation. Many unusual stories were heard, but the most remarkable was told by Mrs. Kroger living on Fourth street, who said: "I have been troubled with rheumatism of both legs for five years, my ankles were almost stiff and with each move I made the pain was almost unbearable. My stomach troubled me so that it was almost impossible for me to retain food."

"My kidneys were also affected, and after I had been treated by physicians they advised and insisted on a surgical operation. I was told of the wonderful effects of the Payne remedies and was persuaded by a friend to call on Payne. I did so reluctantly as I had long ago given up all hope of being cured."

Again Able to Walk. "I bought some of the New Discovery medicine and some of the Quick Relief and after following the directions one day I felt better. I continued taking the remedies and in one week I could walk easily and without the least pain. My stomach is improved so that I can retain all kinds of food and I can heartily thank Mr. Payne for having snatched me from the horrors of an unnecessary surgical operation."

As Payne's visit draws to a close and so many stories like told by Mrs. Kroger come to light, it seems that the statements that he made when he first came to Paducah will be verified.

You are invited to call at Smith & Nagel's Drug Store, Fourth and Broadway.

GYMNASIUM CLASS TO START OCT. 24

Y. M. C. A. is Preparing for the Fall and Winter Work.

Basket Ball, Volley Ball, Indoor Baseball and Other Kinds of Amusements to Be Had.

Y. M. C. A. IS DOING WELL.

On Tuesday night, October 24, the Young Men's gymnasium class starts at the Y. M. C. A., this having been decided on last night. The class will meet every Tuesday and Thursday nights. A leaders' corps will conduct the class. The business men's class will be held every Monday and Friday afternoon from 5 to 6 o'clock. This hour was set so the business men would not have to leave their homes after night.

The recreative features will be specialized this year, such as basketball, volleyball and indoor baseball. Secretary Geoffrey will conduct the business men's class and is expecting it to attract many. He has had considerable teaching in gymnasium work and says that the exercise will be the greatest benefit physically the business men could possibly get. Already a number of business men have signified their intention of joining the class.

The first fifty boys joining the class will mean the beginning of the work for that class. The tuition has been set at \$3 for twelve months and the low price should insure a large enrollment. This includes their admittance to the Bible, military and gymnasium classes.

Basket ball teams are already being organized by Messrs. Harry Singleton and Ben Matthis. They are picking good material and after they have gotten into the "pink" of condition some hot games may be expected.

At a meeting of the Bible class committee held last night it was decided to begin the work immediately. On Sunday afternoon following the regular meeting there will be a popular class for everybody. Three other classes will be formed for men.

The committee trying to select a speaker for the opening of the Men's meetings has not yet found one. Speakers for men only are numerous, but good men for this feature are hard to find. However, the committee is not lax and will in a few days arrange for a first class speaker.

Success is being met with by the canvassing committee.
